Passionate about cloud technologies and full-stack development, eager to contribute to innovative projects, enhance technical expertise, and grow as a cloud and software professional.

EDUCATION

2024 - 2027

J S university
sikohabad firozabad

Bachelors of computer application

Bachelor of Computer Applications (BCA) is a three-year undergraduate degree program focused on computer science and application development. It covers subjects like programming, data structures, web development, networking, databases, operating systems, and software engineering. Through BCA, I've gained a solid foundation in both theoretical concepts and practical skills related to computing, preparing me for careers in software development, cloud computing, AI/ML, and more.

PROJECTS

JULY-AUG

USING PYTHON WITH
GEMINI API

AI ASSISTANT LIKE JARVIS

Developed an AI assistant that automates laptop tasks like opening apps and playing music. It uses computer vision to detect facial emotions and hand gestures in real time via webcam. The assistant responds with fast speech output, analyzes mood, and executes tasks based on expressions or signs, making it an intelligent, interactive, and user-friendly system.
